Schedule “A”  
2014-2018 Financial Plan  
Statement of Objectives and Policies

In accordance with Section 165(3.1) of the *Community Charter*, the District of Barriere is required to include in the Five Year Financial Plan, objectives and policies regarding each of the following:

1. The proportion of total revenue that comes from each of the funding sources described in Section 165(7) of the *Community Charter*,
2. The distribution of property taxes among the property classes, and
3. The use of permissive tax exemptions.

**Funding Sources**

Table 1 shows the proportion of total revenue proposed to be raised from each funding source in 2014. At this time “Government Grants” form the largest proportion of revenue. “Other Sources of Funding” represent the second largest portion of revenue. This source of funding consists primarily of transfers from reserve and surplus accounts for District share of Grant Projects. “Property Taxes” form the third largest proportion of revenue. As a revenue source, property taxation offers a number of advantages. It is simple to administer and it is fairly easy for residents to understand. It offers a stable and reliable source of revenue for services that are difficult or undesirable to fund on a user-pay basis. These include services such as general administration, fire protection, and bylaw enforcement.

Many services can be measured and charged on a user-pay basis. Services where fees and charges can be easily administered include water and sewer usage, building permits, business licenses, and solid waste services – these are charged on a user pay basis. User fees attempt to apportion the value of a service to those who use the service.

**Objective**

- Over the next five years, the District of Barriere will continue to increase the proportion of revenue that is received from user fees and charges over the current levels.
- The District will also look at growing our revenue sources so that government grants are not the largest source of revenue.

**Policies**

- The District of Barriere reviews all user fee levels to ensure they are adequately meeting both the capital and delivery costs of the service.
- Where possible, the District will endeavor to supplement revenues from user fees and charges, rather than taxation, to lessen the burden on its limited property tax base.

- As well, the District will actively encourage economic development and residential developments.
- Lastly, the District will investigate new revenue streams for products and services.

**Table 1: Sources of Revenue**

<b>Revenue Source</b>	<b>% of Total Revenue</b>	<b>Dollar Value</b>
Property taxes	9.15	692,615
User Fees and charges	8.12	614,100
Other Sources	15.61	1,181,988
Proceeds from borrowing	0	0
Government grants	67.12	5,081,962
<b>Total</b>	<b>100%</b>	<b>\$7,570,665</b>

**Distribution of Property Tax Rates**

Table 2 outlines the distribution of property taxes among the property classes. The residential property class provides the largest proportion of property tax revenue. This is appropriate as this class also forms the largest portion of the assessment base and consumes the majority of the District of Barriere services. Overtime, the District will work to increase the industrial and business uses in the District to lessen the impact on residential properties.

**Table 2: Distribution of Property Tax Rates**

<b>Property Class</b>	<b>% of Total Property Taxation</b>	<b>Dollar Value</b>
Residential (1)	76.31%	528,729
Utilities (2)	3.22%	22,366
Social Housing	0	0
Major Industrial (4)	4.37%	29,901
Light Industrial (5)	1.21%	8,413
Business and Other (6)	14.72%	101,993
Recreation/Non-Profit (8)	.14%	974
Farmland (9)	.03%	239
<b>Total</b>	<b>100%</b>	<b>\$692,615</b>

### **Objective**

- Over the next five years, the District will work to increase the number of industrial and commercial businesses within the District boundaries. This increase would lessen the tax burden on residential properties.
- Under Incorporation, the industrial tax rate was reduced.
- Maintain the property tax rate for businesses and other (class 6) at the current rate.

### **Policies**

- The District will look at developing new revenue sources to offset the tax rate for all classes.
- The District will develop economic initiatives to attract more retail and commercial development.
- The District will continue to compare our tax rates with our par communities.

### **Permissive Tax Exemptions**

The District provides tax exemptions for non-profit societies in our community. Non-profit groups provide key services for our community.

### **Revitalization Tax Exemptions**

The District has developed two Revitalization Tax Exemption Bylaws that encourage development and revitalization in the community. Barriere Town Road and the Yellowhead Highway corridor are the two areas that are named in the bylaws.

### **Objective**

- To continue to provide tax exemptions to non-profit societies and potential development areas.
- Wherever possible, green development will be encouraged.

### **Policies**

- Develop the components of an exemption program that will target green activities.
- To continue to assess the need for development and revitalization of areas of the community.
