Subject: Upcoming Clearwater Station Bridge Closure (Oct 8 -22, 2024)

Good morning,

On behalf of the Ministry of Transportation & Argo Road Maintenance, we are advising the Clearwater Station Bridge (Blue Bridge) will be closed from October 8 – 22, 2024 due to structural components that require replacement.

Information bullets as follows:

- Ministry of Transportation, Argo Road Maintenance, & District of Clearwater are working on a bridge rehabilitation project on Clearwater Station Bridge (Blue Bridge).
 - Argo will be rolling out a public stakeholder advisory early next week.
- Due to the nature of the bridge works, a continual vehicle closure of the bridge will be required from October 8– 22, 2024. The Ministry & Argo understands the significance & inconvenience of the detour via Dunn Lake Road, but due to the fact of structural components being replaced, the full closure is necessary.
- Pedestrian access will be maintained throughout the project & the Little Fort Ferry will remain open.
- The project planning has accounted for the BC Hydro outage on October 6th, and has delayed the project commencement with bridge closure to October 8th to accommodate.

Questions can be directed to Justin Finley with Argo Road Maintenance at 250-374-6690 ex) 202, or jfinley@argoroads.ca. General public inquiries can go to argokam@argoroads.ca.

Kind regards,
